

Chapter & Verse

If I remember correctly, we had a smaller turnout than normal, but an amazing amount of new turnings at the show and tell. Starke took care of business with the anchorseal and CA glue, (remember to be very careful with the CA and accelerator, it can really burn you if it gets on your skin at the same time). Scott gave

and impressive demo, with both the motor hook up he had and the bird house demo, (I was inspired and turned on myself, that happen to anyone else?) One thing about a rural club like this, is that we all have lots of wood laying around so we can turn anytime we want. Let's bring some of that stuff that just laying

around and put it in the silent auction. We don't want Starke getting bored and it helps the clubs finances.

Presidents Corner

Well, I hope everyone had a productive month turning; I know I did. Sometimes things just flow so smoothly at the lathe; every cut is clean, and nothing seems to go wrong. Other times everything can go wrong; a catch can really get the adrenaline flowing. Always be alert and prepare for bad things to happen. Wear those safety

glasses, face shield and keep the tools sharp. I speak from experience...

The Saturday turning session went well. We got the display stands turned with the help of Dave, Joan, Michelle and Jim. Paul came by to show support, and a big thanks to Starke for supplying the wood.

I hope you enjoy this month's demo. I will be turning a stacked bowl, and Scott will

be bringing his projector to give a better view to the audience. I hope everyone can attend. See you Tuesday! Bert

Back cover: Collaborative designs

Show & Tell

Bert Smith will be demonstrating turning a stacked bowl.

Library

If you have anything that you feel would be appropriate for our library and would like to lend or donate it, please contact Ray Tilghman at vturner@earthlink.net

The Central Virginia Woodturners was formed to promote the art of woodturning to the general populace and create an environment conducive to the sharing of ideas and talent to those interested in the pursuit of fine woodworking.

Upcoming Events

I want to apologize to every one, but I just returned from a weeks stay at the Windsor Institute in Hampton New Hampshire. I spent the week with Mike Dunbar, who has been feature on the cover of Fine Woodworking several times and is a contributing editor for them. He specializes in period furniture with hand tools only. We build a Windsor "sack back" chair with draw knives, spoke shave, travisher, scorp, adze, curved planes and more. I have included several pictures for your information. It was a tiring week. I used muscles I didn't know I had and used them all day. The chair is being shipped to me from the school so I can't bring it to show and tell, maybe next month. Anyway, I got home at 12:30 am Monday and am just now getting to the newsletter. Peter

Shirts and caps are in and will be available at the meeting in May.

Shirts will be reduced to \$15 and the caps will be \$11. The club will be able to make a few dollars on each item, so buy some extra's. (2XL and 3XL add \$1.50)
